## Recycling efforts (whole school)

- Reduce: paper, water and electricity
- Reuse: art curriculum (creating craft)
- Recycle: paper, bottle
- Recycle: rainwater and food waste

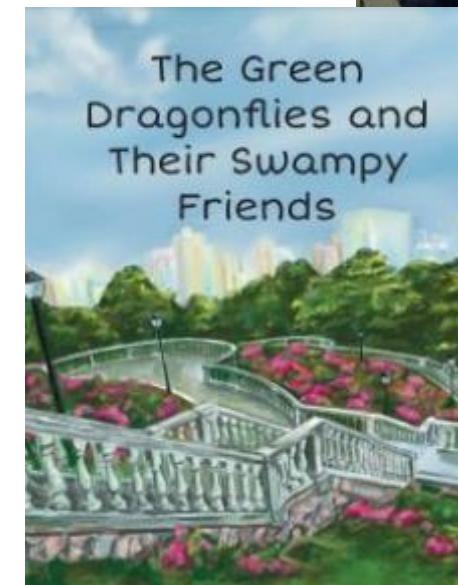

# LEARNING FOR LIFE PROGRAMME (LLP)

- Outreach Programs: Recycling Drives
  - School collaborates with South West CDC and SembWaste. Students collect recyclables for different organisations in exchange for groceries for needy residents.

# LEARNING FOR LIFE PROGRAMME (LLP)

- Outreach Programs: The Green Dragonflies and their Swampy Friends
  - Students and teachers wrote a book titled, 'The Green Dragonflies and their Swampy Friends'. The story aims to educate children to make conscious choice by taking positive actions in caring for the environment.

# Applied Learning Programme (ALP)

ALP revolves around 3 Big Ideas:

1. Learning about the real world
2. Learning by doing and applying
3. Learning for life

# Applied Learning Programme (ALP)

Connects classroom learning with real-life applications and encourages students to creatively apply concepts to solve authentic problems.

It focuses on evoking curiosity in learning, developing inventive thinking and encouraging a dare-to-try spirit.

## Green Engineering

– Students learn how materials and surface colours play important roles in passive solar heating. They are introduced the idea of using the sun as a source of renewable energy. Using this information, students design and build their own solar ovens and test them for thermal gains and loses.

# YOUNG PHOTOGRAPHERS

Viewpoints taps on department programmes from the [English Language Department](#), [Mother Tongue Language Department](#), and [Young Photographers](#) programme to enhance language skills and deliver an authentic learning experience for all students through Print, Broadcast, and Photojournalism.

As part of Viewpoints, this enrichment programme aims to engage the P6 students in applying their [photography skills acquired in P5](#) and to equip them with advanced DSLR skills to handle the camera, shooting techniques (Symmetry) and picture composition.

The Learning Campus where we Grow *Deep* and Grow *Together*

# YOUNG PHOTOGRAPHERS

This is carried out in a **Blended Learning** approach, whereby students will learn composition techniques through video tutorials, apply knowledge through formative assessment activities in Student Learning Space (SLS). In the SLS, they will also use the Thinking Routine – See Think Wonder to analyse photographs and to deepen their understanding of the topic.

They will then apply knowledge gleaned through hands-on activities in school and outdoor shoot. If outdoor shoots are not possible, students will remain in school for their hands-on practice. The theme will be **The Environment at Jurong Lake Gardens** which will provide students with the authentic resources for photojournalism in **Viewpoints**.

# VIEWPOINTS

The Earth's temperature is rising! Singapore is known as a "Garden City", so we should learn to appreciate all the greenery around us. As the temperature of the surroundings increases rapidly, the earth is in more danger! More plants and animals die, and you might be thinking, "so what?"

Let me tell you this, global warming affects our lives too! There would be a decrease in our human population due to a lack of food and water. These photos were taken to show how beautiful Singapore is with the greenery and how important mother nature is. We should appreciate the greenery we have now as you would never know, maybe in 50 years most of the plants and animals we know now may not exist anymore.

# HOW PSLE SCORING WORKS

- [Changes to the PSLE scoring and S1 posting](#)
- [What you need to know about the new PSLE scoring system](#)

## Partnering parents to bring out the best in our children

- As a system, the changes to the PSLE scoring and S1 posting system aim to encourage students to focus on their own learning through reducing differentiation and comparison among students.
- This system shift can only achieve its purpose with the help of parents and teachers, who play an important role in helping our children make learning, not marks, their key focus.
- Teachers can partner parents to look beyond academic performance by:
  - Encouraging them to recognise that every child has different strengths and abilities. With our increasingly diverse secondary school landscape, there will be a variety of good schools and programmes to develop each child's strengths and interest areas, no matter what the child's PSLE Score is.
  - Guiding our children to find the right balance between doing their best academically and pursuing other interests, which develop different aspects of their character.

# FROM T-SCORE TO WIDER SCORING BANDS

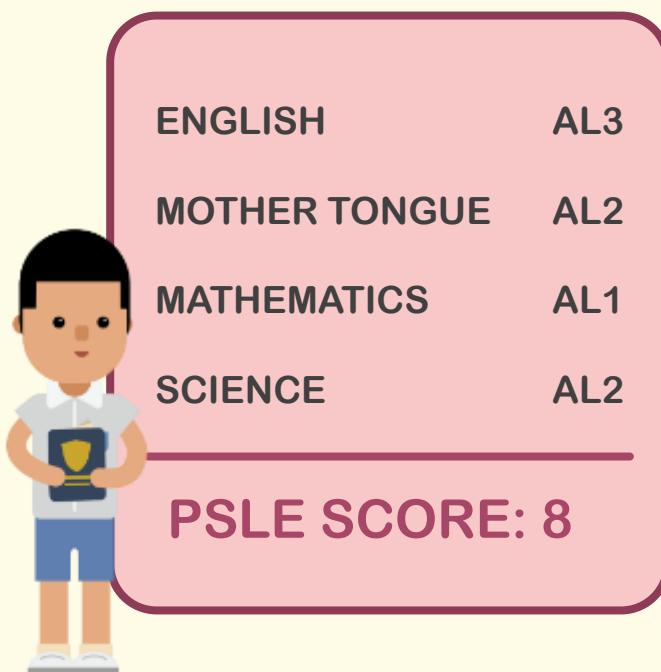

Reflects a student's individual level of achievement

Unlike the current T-score, students' AL for each subject will reflect their level of achievement, rather than how they have performed relative to their peers.

AL	RAW MARK RANGE
1	$\geq 90$
2	85 – 89
3	80 – 84
4	75 – 79
5	65 – 74
6	45 – 64
7	20 – 44
8	< 20

# FROM T-SCORE TO WIDER SCORING BANDS

- The PSLE Score replaces the T-score aggregate.
- It is obtained by adding the ALs of four subjects.
- The PSLE Score ranges from 4 to 32, with 4 being the best.
- Students will be placed in secondary school courses based on their PSLE score – Express, Normal (Academic) or Normal (Technical).

PLACEMENT OUTCOME	PSLE SCORE
EXPRESS	4 – 20
EXPRESS / N(A) OPTION	21 – 22
N(A)	23 – 24
N(A) / N(T) option	25
N(T)	26-30, with AL7 or better in both EL <u>and</u> MA

# FOUNDATION SUBJECTS GRADED IN 5 BANDS TODAY

- Under the current PSLE grading system, Foundation subjects are graded in 5 scoring bands from Grade 1 to U.

Current System	
Grade	Raw Mark Range
1	85 – 100
2	70 – 84
3	50 – 69
4	30 – 49
U	< 30

# FOUNDATION LEVEL SUBJECT GRADES TO BE LESS FINELY DIFFERENTIATED

- Under the new AL system, to reduce fine differentiation among students, Foundation subject grades will be graded in 3 scoring bands from AL A to C.
- Like Standard subject ALs, the Foundation subject ALs will reflect a student's level of achievement, rather than how they have performed relative to their peers.

Foundation Level AL Reflected on Result Slip	Foundation Raw Mark Range
A	75 – 100
B	30 – 74
C	< 30

# SCORING OF FOUNDATION SUBJECTS FOR S1 POSTING

- A student's PSLE Score is the sum of the four AL scores across his/her Standard and Foundation subjects.
- Students taking Foundation subjects are eligible for the Express Course, as long as they meet the course placement criteria.
- With Full Subject-based Banding in secondary schools, students may also take subjects at a higher level for those that they are strong in.

ENGLISH	AL3
FOUNDATION MOTHER TONGUE	ALB
FOUNDATION MATHEMATICS	ALB
SCIENCE	AL5
<b>PSLE SCORE: 22</b>	

PLACEMENT OUTCOME	PSLE SCORE
EXPRESS	4 – 20
EXPRESS / N(A) option	21 – 22
N(A)	23 – 24
N(A) / N(T) option	25
N(T)	26 – 30, with AL7 or better in both EL and MA
